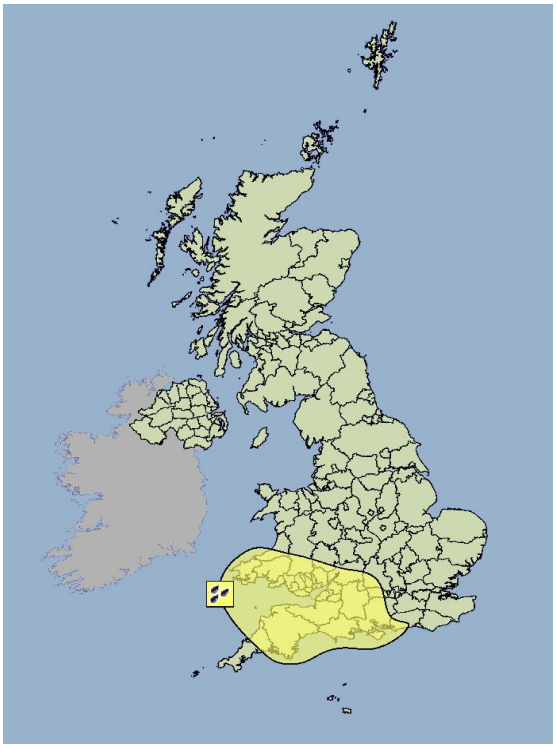
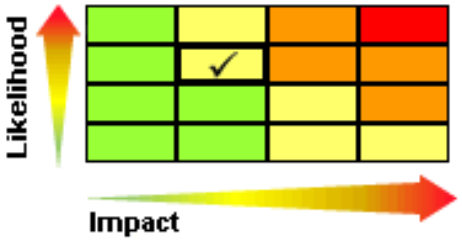
National Severe Weather Warning Service





Chief Forecasters Assessment
Outbreaks of rain developing over parts of southern UK early on Tuesday are expected to become heavier and more widespread through the course of the day. In particular, during the late morning and afternoon, some heavy rain is likely at times, rain accompanied by thunder for some. Rainfall accumulations within the warning area will generally be up to 20 mm. However, some locally higher accumulations are likely.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **09:00 on Tue, 10th May 2016** until **20:00 on Tue, 10th May 2016**

Outbreaks of rain, heavy at times with a risk of thunder, are expected during Tuesday giving a risk of local accumulations in excess of 20 or 30 mm.

Please be aware of possible localised surface water flooding where the heaviest rain occurs.
